DETAILED ACTION

Claim Objections

Claim 1 is objected to because of the following informalities: on line 2, it is suggested that "bars" be changed to "bar".. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to claim 1, line 4, the recitation "the bars" lacks positive antecedent basis in the claim. Note that line 2, sets forth "at least one bars". It is suggested that "bars" be changed to "at least one bar" for consistency. The same problem exists on line 6.

With respect to claim 4, "the bar" lacks positive antecedent basis in the claims. In claim 1, line 2, "at least one bars" is recited.

With respect to claim 5, the recitation "the bar of a standard trailer hitch" lacks positive antecedent basis in the claims.

With respect to claim 6, it is unclear as to whether or not the holes receive a pin because of the use of "may", line 2.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 7, 9 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S.

Patent no. 5,975,499 to Ostrobod.

Ostrobod discloses a boom comprising at least one bar 24 and sleeve 26; and a movable spindle 18; wherein the sleeve is sized to fit over an end of the bar, and both the sleeve and the bar are adapted to mount the movable spindle. Note figure 7 wherein the spindle 118 is mounted on the bar.

Allowable Subject Matter

Claims 1-6 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Claim 8 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 11-16 are allowable over the prior art of record.

Response to Arguments

To the extent still applicable, applicant's arguments filed March 5, 2004 have been fully considered but they are not persuasive.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
